

WE STAND WITH YOU!

As you may be far from your loved ones and community we want you to be safe, which is why we want you to know that not everyone you may encounter is honest. Some people may pretend to be your friend but their intentions are not friendly.

Trafficking in human beings hides behind a friendly face and makes false promises to people in vulnerable situations and circumstances.

These are some practical tips to help keep you safe:

- 1 Protect your identification and don't relinquish or give your documents to anyone - even for safe keeping. Keep them with you at all times
- 2 Don't give your personal phone to anyone
- 3 Wherever you are, register with the local authority or local organisation databases. When travelling with someone you don't know, please take a photo of the person and the vehicle and send it to someone you know and trust
- 4 If you choose to stay somewhere other than the accommodation provided for you by non-governmental organizations, churches or associations, please make certain you notify the local authorities and advise them as to where you will be staying
- 5 In case of an emergency, suspicious person or concern, please immediately notify the nearest police station or local authorities

The contact details provided on this brochure have been vetted by the European Freedom Network, a registered anti-trafficking community that exists to fight human trafficking in Europe.
